Regarding the interdisciplinary approach of NEP, the College has already been offering five certificate courses:

1. Certificate Course on Basic Statistics
2. Certificate Course on Communicative English
3. Certificate Course on Creative Writing
4. Certificate Course on Human Rights

The courses are structured so as 10+2 passed students may attend classes with flexible timings. Some of the courses also engage students in community services. The College has a vision to upgrade these certificate courses into diploma courses in future. The good practice of these courses is that lecturers with respective specialisation from outside are invited to take classes.

16. Academic bank of credits (ABC):

Regarding Academic Bank of Credits (ABC), the College is yet to introduce the system as our parent institution, Gauhati university is yet to introduce the system. As soon as Gauhati University introduces the system, as an affiliating institution, the College will also introduce the system.

17. Skill development:

Following the core concept of interdisciplinary nature of learning through NEP 2020, the College has planned to introduce various vocational courses. These will include various skill-based courses like cutting-knitting, driver training, computer application, yoga and physical training etc. Introduction and selection of vocational courses will be done keeping in mind the category of students and their economic capability to pursue the courses. It is because the college is located in a Tribal SubPlan area where almost 70 percent of the people belong to economically weaker category. Hence, offering affordable courses will be beneficial for both parties. The college will get students in those courses and on the other hand the students will get the basic level of knowledge or skill to get engaged soon. Additionally value-based teaching is being continued in the college. Department of Philosophy, Department of Education,

Department of Political Science are focusing on imparting knowledge on ethics, human values, human rights, justice etc. Already we have a functional NSS unit and we are planning for NCC in near future.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

In connection with Indian Knowledge System, the College has been practicing the bilingual mode of teaching that is English and MIL (Assamese and Bodo). At the same time, Indian indigenous languages like Assamese and Bodo are offered as Honours and Regular Course of study. The Department of Bodo has also been running a certificate course in traditional art and culture as well.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

The initiatives and efforts made by the College about the Outcome based education has already been uploaded in the College website: (<https://www.northkamrupcollege.org/program-outcome>).

20.Distance education/online education:

For the better benefit of the student community, the teachers have developed and uploaded study materials in the college website. The teachers prepare and use power point, video clippings, short films to make teaching-learning interesting and more effective. All the teachers of North Kamrup College use ICT tools including online resources, projectors, smart classroom, virtual classroom for effective teaching-learning process.

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

North Kamrup College, being an affiliated institute of Gauhati University, executes the curriculum designed by the University. The College ensures timely and effective curriculum delivery in a planned manner. An academic Calendar is prepared which is the key instrument for smooth and effective transaction of the curriculum. It contains the list of activities to be accomplished including commencement of classes, transaction of curriculum and its completion within the stipulated time. Along with the Prospectus, the Calendar is provided to the students and teachers at the very beginning of the academic session. For the smooth functioning of the classes, the College also circulates a general class routine prepared by a Routine Committee. The Head of Departments distribute the classes among the faculty members of the departments. Every teacher keeps record of their classes and activities in the form of Progress Report. The College arranges tutorial classes, extra classes, seminars, workshops, group discussions for the quality development. Students are regularly

counseled regarding the reference books, rules and regulations under the semester system. Students' feedback also helps the authority to assess the progress of curriculum delivery. The necessary learning resources foreffective academic development are essentially supplied by the central library.

The students are evaluated through sessional examinations and assignments. The students are notified about the schedule of such evaluation programme through the notice hanged on the notice board. As the University is the sole authority in designing the structure of the course curriculum, so the affiliating colleges have a little scope in it. However, faculty as board member or as an invitee takes part in this reformation process. In the semester course, the University reserves the right to set the questions of 80% marks in each paper forend semester examinations and the rest 20% marks are accrued of 10% from the sessional examination, 5% from students' attendance and 5% from seminars/group discussion/assignments, etc. The College ensures the effective implementation of the internal marks through sessional examination; group discussions/seminars/assignments and strict norms of students' attendance.
