

The institutional strategies for mobilization of funds and the utmost utilization of resources include the following strategies:

**Strategy no 1:** The College has a huge pond within the campus which can be used for fish cultivation. In the perspective plan the college has decided to use the pond for fish cultivation in order to generate resources in near future.

**Strategy no 2:** The College also has unused fertile land. Accordingly the strategy has been adopted to lease the land in order to generate resources.
